⬆ Easier OR Harder ⬇

**Rules for KENKEN**
1. Each row and each column must contain the numbers 1 through 4 (easier) or 1 through 6 (harder) without repeating.
2. The numbers within the heavily outlined boxes, called cages, must combine using the given operation (in any order) to produce the target numbers in the top-left corners.
3. Freebies: Fill in single-box cages with the number in the top-left corner.
